

# TUC Library Newsletter – November 2015

Each month the Library sends out a brief, online newsletter sharing our notable news and also highlights about different library resources and tools that can assist you with your research and studies.

In between Library newsletters, look at the [New in the Library page](#), or follow the Library on [Facebook](#) for current updates.

## General News Briefs

### Noise Level in Library

We need your help with this: Over the last weeks we have received quite a number of comments, concerns, and even some complaints from students about the noise level in the Library. The noise level on the Library south side/"collaborative" side has been particularly high at times and has carried over to the "silent side" and interfered with students trying to study in a quiet place. Please help your fellow students get the most out of their time in the TUC Library by remembering that

- The large open study area on the South Side of the Library (Lander side) plus all the group study rooms throughout the Library are intended for collaborative study, but because the Library is a relatively small space and noise carries, our "inside" voice level needs to be used in the Library South Side Study Area and in the group study rooms.
- The North Side reading area including the couch/newspaper area outside the Library Computer Lab are designated "silent" study areas. No talking, whispering, or eating in the north side reading area. Beverages are o.k.
- Cell phone use is not permitted in the Library.
- Packets of earplugs are available at the Library Circulation counter.

Thank you very much for your cooperation and your help making the Library a good place for everyone to study and work on assignments.

## Upcoming Use of Library Computer Lab for Exam

An early heads up: the Library Computer Lab and Library Group Study Rooms 208, 209, 210 will be needed for an all-day exam on Wednesday, December 9 and will not be available for regular use that day from 8:45 am – 5:15 pm.

## New Art Work In Library

Two additional paintings by internationally known artist Rita Blitt were recently hung in the Reading Area on the Library north side. We are very pleased to have these two works plus 3 other paintings by Ms. Blitt. They have added much interest and beauty to the TUC Library. For more background on the artist's extensive work and many contributions to the arts, see [Rita Blitt; Visions of my World](#) available in the Library collection.

## News about Library Resources

### Resource Spotlight: Thieme's [Teaching Assistant 2.0: Anatomy](#)

Teaching Assistant Anatomy is a great study or presentation tool. It contains over 2000 illustrations and images from Gilroy's *Atlas of Anatomy*, second edition, as well as additional content from *Head and Neck Anatomy for Dental Medicine*. The Teaching Assistant Anatomy allows one to manipulate images, turn on/off labels for testing your knowledge and provides the ability to export images or embed them into PowerPoint slides or PDF documents. Browse the [quick tips](#) page for details on these great features and more.

## Need help looking for books or media in the Library?

The TUC Library uses both the Library of Congress (LC) and the National Library of Medicine (NLM) classification schemes to organize books and media on TUC Library shelves. Two posters (to be hung next week) are intended to give you quick overview of where to look for books on the shelves.

The **National Library of Medicine (NLM)** classification is used for clinical specialty and practice areas and board review materials. Some often -used classification areas include:

- Basic Sciences (Q)
- Anatomy (QS)
- Pharmacology (QV)
- Health Professions, board review materials (W, WB)
- All clinical specialty & practice areas (WB – WW)
- Public Health (WA)
  - including Health Care Delivery, Biostatistics, Epidemiology
- Nursing (WY)

The **Library of Congress Classification (LC)** scheme is generally used for non-clinical areas: Some often -used areas at TUC Library include:

- Psychology (BF)
- Judaism (BM)
- Education (L)
- Juvenile Collection Material (primarily PS & PZ)
- Autism and Asperger Syndrome (RC, RJ)

These are broad guidelines -- specific titles should be searched in the TUC [online catalog](#). Questions? Ask one of your [Librarians!](#)

## PsychiatryOnline Book of the Month

The PsychiatryOnline Book of the Month for November 2015: [Clinical Manual of Alzheimer Disease and Other Dementias](#) edited by Myron F. Weiner, M.D., and Anne M. Lipton, M.D., Ph.D.

From the publisher: This book provides "neuropsychiatric assessment and the diagnosis and treatment of a wide range of neuropsychiatric conditions, including Alzheimer disease and traumatic brain injury. The manual provides invaluable information on both evaluation/diagnosis and treatment. Case studies offer real-life clinical experiences by some of the country's leading experts in the field."

## General Books of Interest

To learn more about our historic Mare Island, including its Naval Shipyard, architectural gems, cemetery, check out one of these new books in the TUC Library:

[A long line of ships; Mare Island's century of naval activity in California](#)

*[Closure; the final twenty years of Mare Island Naval Shipyard  
Sidewheelers to nuclear power; a pictorial essay covering 123 years at the Mare Island Naval Shipyard](#)*

And volume 1 of the book: *[Mare Island Cemetery](#)* about the oldest naval cemetery on the West coast. One of the authors told us that volume 2 will be forthcoming soon.

Also available are two walking tour brochures for check-out. One is on some of the historic architecture on the island and the other a historic walking guide of Touro University California.
